

October 22, 2020

The conversion has completed! I hope the experience was more positive than negative. We are already getting positive response from members and feel the change was worth it.

Starting November 2, 2020 we will disconnect our old system and be 100% on the new. Please note that any set-top-boxes (STB) that failed during the conversion will not stream programming. We've tried to contact everyone who's STB failed the conversion and assist them with resetting all the STB's.

If you have questions, you can email us at support@sptc.net or call Tech Support at 806/763-2301 or 1-800-692-4472.

Sincerely,

Wade Maner
CEO/General Manager
